Through the Years

SUZOHAPP has grown rapidly to meet the needs of the markets and customers we serve, expanding the breadth of our product offering and service capability.

Your Trusted Partner

SUZOHAPP's supply chain capabilities provide our customers with the most reliable support and service "From Our Door, To Your Production Floor". Working in partnership with our customers, we can deliver products when they are needed saving time and reducing costs. We remain firmly committed to providing all of our customers with the industry's best service, products, and solutions.

Over 150,000 sq ft of efficient warehouse storage stocked with thousands of part numbers.

Our Story

SUZOHAPP's mission is to provide our customers with excellent service and high quality components and solutions that create significant value for your business. With over 1100 employees in 37 locations, SUZOHAPP is able to serve customers anywhere in the world. This breadth of coverage allows us to react quickly to local, regional, national and international developments. We continually improve our engineering, manufacturing, service and distribution capabilities to meet the needs and exceed the expectations of our customers.

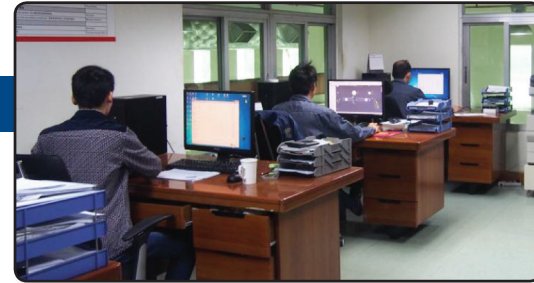

Manufacturing Capabilities

With our many years of industry experience, SUZOHAPP has developed innovative customer-centric engineering and manufacturing processes to develop new and inspired products. Investment in research and development is a top priority. Global product management teams meet continuously to develop new products and custom solutions for our customers' ever-changing needs.

Our dedicated industrial, mechanical, and electronic engineering teams provide complete design, as well as component selection. We utilize contemporary modeling technology and manufacturing processes, to produce accurate designs with competitive costs and quick lead times.

In-House Solutions

Extensive in-house design, development and production resources located in multiple SUZOHAPP facilities, ensure that projects will be efficiently taken from concept to completion. Working together, our experienced engineering and R&D teams partner with you to create more value for your business.

China Advantage

Established in 1993, SUZOHAPP China has been committed to the development and manufacturing of custom OEM products and sub-assemblies for customers worldwide. Our 130,000 sq ft facility has the scale and flexibility to align with client project time lines and goals. We design and manufacture products that are used extensively in Gaming and Amusement devices as well as in demanding Industrial, Vending, and Transportation applications.
