Formation of SUZOHAPP Digital

MT. PROSPECT, ILL. JANUARY 15, 2019

SUZOHAPP, a leading technology company that provides software and hardware for cash handling automation and self-service solutions worldwide, recently announced plans to form a new, global business unit to support its software and digital market offerings. This new group will be called **SUZOHAPP Digital**.

“Software is a core differentiator for us in the market,” says Drew Scielzo, Chief Executive Officer of SUZOHAPP. “Given our continued investment in this area, it made sense to create a group focused solely on our software products and digital payment solutions.”

This new business unit will be headed by Rory Herriman, SUZOHAPP’s current Chief Technology Officer for Software and Digital Systems. Herriman will assume the new role of Executive Vice President and General Manager for SUZOHAPP Digital.

“This group is about customer care, innovation and expertise development. The additional focus will help us anticipate and address customer needs, develop and deepen our expertise, and drive innovation in the markets we serve,” says Herriman. “We expect this change will create significant growth for our Digital products, solutions and services.”
